SafeScan

The image shows a mobile application interface for selecting a safety checklist category. The app is titled "SafeScan" and has a "BACK" button. The main heading is "Now pick the category you want to add the safety check to:". Below this, there are five buttons arranged in two rows: "Brick Layers", "Carpenters", "Electricians", "Plumbers" in the first row, and "Supervisors" in the second row. The "Supervisors" button is highlighted with a red border. At the bottom, there are two circular icons with a globe symbol, one on each side of the "SafeScan" title.

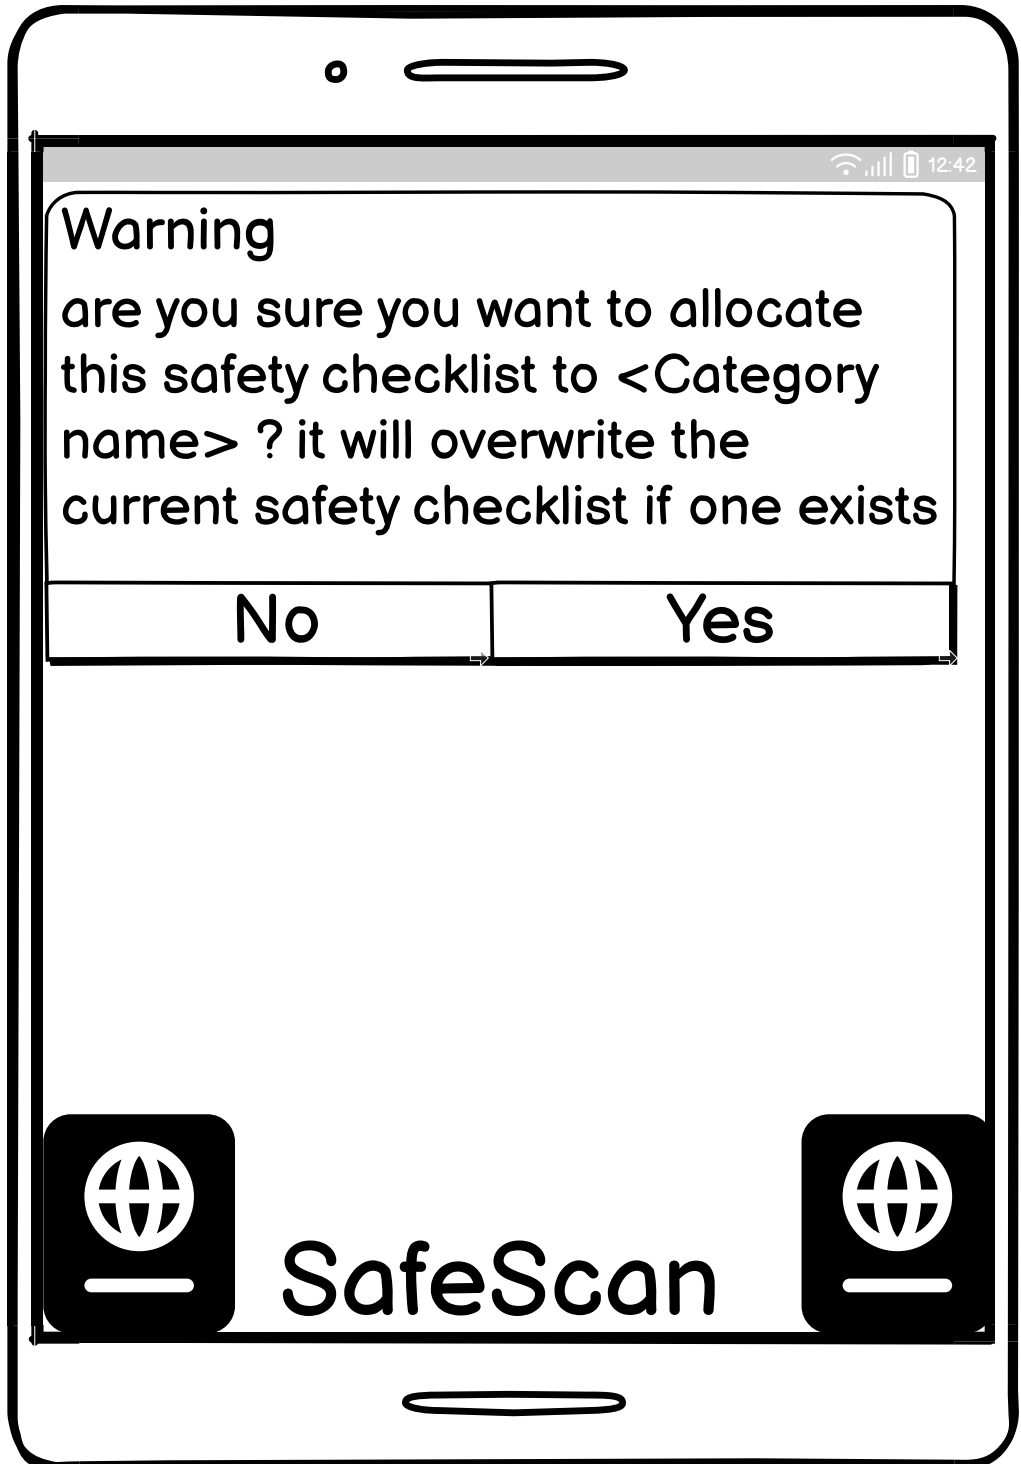

Now pick the category
you want to add the safety check to:

Brick Layers Carpenters Electricians Plumbers

Supervisors
